TEACHER MANUAL

Developed by

Spyroula G. Constantinou

and

Christina T. Stephanidou

June, 1994

Introduction

The **Software Tool for the Needs of Schools of Special Education** (Copyright (c) HTI, 1994) was developed by Christina T. Stephanidou and Spyroula G. Constantinou in 1994. The package is licensed to the School for the Deaf.

This book is the Teacher Manual. In the book teachers can find all the instructions for operating the system, from the entry point of the system to the very last ending screen. The manual describes in a detailed way what each option does and what procedures should the teacher follow in order to perform a specific task. Apart from the detailed descriptions, the teacher can see all the screens that have been designed, printed on the paper.

In this book, teachers can find :

- * How to install the system
- * How to backup and recover program files
- * How to use the sytem
 - Maintenance of the Questions and Answers pool
 - Maintenance of tests
 - How to see the students solutions
 - How to operate and see statistics.
