

TAX SYSTEM FOR SMALL BUSINESSES AND INDIVIDUALS

Project Report Submitted By
Panagiotis Malactou

Project Supervisor: Mr. Panicos Masouras

HIGHER TECHNICAL INSTITUTE	PROJECT NO
	3707

Introduction

This Project was proposed by Mrs. Maria Theodorou, lecturer of the Computer Studies department of H.T.I. It is web based software which allows people to calculate their taxes online.

Main emphasis was given to the calculation of taxes for individual and self-employed people. Taxes for estimation were Income Tax, Vat and Social Securities.

In order for the user to be able to calculate his/her taxes, should register to the online site, verified, fill the appropriate form with the necessary data and let the system to proceed to calculations. If there are no errors on form, the system will generate a report with appropriate information concerning the user and of course the tax that should be paid or returned to the user.

All the requirements of the system were given from people working in the Tax department of Cyprus and from the Cypriot web site concerning taxes:

Table of Contents

Introduction.....	4
1. Investigation Phase.....	6
1.1 Initial Investigation Activity.....	6
1.1.1 Introduction.....	6
1.1.2 Information about the Inland Revenue Department.....	6
1.1.3 Information about the Vat services.....	6
1.1.4 Information about the Social Insurance services.....	7
1.1.5 Definition of the Problem.....	7
1.1.6 Info about the people.....	8
1.1.7 Recommendation.....	8
1.2 Feasibility Study.....	10
1.2.1 Introduction.....	10
1.2.2 Financial Feasibility.....	10
1.2.3 Operational Feasibility.....	11
1.2.4 Technical Feasibility.....	11
1.2.5 Schedule Feasibility.....	11
1.2.6 Human Factor Feasibility.....	12
1.2.7 Conclusion.....	12
2. Analysis and General Design Phase.....	14
2.1 New System Requirements.....	14
2.1.1 Introduction.....	14
2.1.2 Overview Narrative.....	14
2.1.3 System Functions.....	14
2.1.4 Processing.....	15
2.1.5 User Interface with the system.....	15
2.2 New System Requirements.....	16
2.2.1 Introduction.....	16
2.2.2 Performance Criteria.....	16
2.2.3 Security and Controls.....	16
3. Detailed Design And Implementation Phase.....	18
3.1 Technical Design.....	18
3.1.1 Introduction.....	18
3.1.2 Human – Machine Interface Design.....	18
3.1.3 Backup and Recovery Procedures.....	18
3.2 Test Specifications and Planning.....	19
3.2.1 System Testing.....	19
3.3 User Training.....	20
3.3.1 System Testing.....	20
3.3.2 User Manual.....	20
4. Conclusion.....	21
