## A C K N O W L A D G E M E N T S

I would like to express my thanks and gratitude to my project supervisor, Mr. Christos Makarounas in computer studies department for his guidance and help given throughout the project development.

My thanks extend to Mr. Pambos Danos, Marketing & Sales Executive at HERTZ, for his help and time spent with me.

I would also like to thank all those who in any way helped me in presenting this project.
