## Dedication

I would like to dedicate this project to my parents who taught me how to love nature and freedom, to my aunt Colette Ioannidou who has struggled bravely and loved sincerely in all the years I have known her, to my cousins Dinos and Aliko, to my grandmother Chrystalla Adamidou, and to my aunt Elli Ioannidou.

Finally, I dedicate this project to the children in the world who suffer from thirst, famine and diseases, hoping that all these will end up soon for them, like a bad nightmare.
