## USER MANUAL

### 1. INTRODUCTION

The ISF World Gymnasiade 1994 system, is a complete system, supported by a powerful database, which handles information about the athletes, the events, the place and time of events execution, and many other useful information concerning the Games.

The system operates in a user friendly environment, providing the user with extra features for security and presentability. Four levels of user passwords are provided, in order to prevent the system from unauthorized access. The on-line help is an extra feature that provides further explanation for the system.

The system offers many useful Utilities (Backup, Restore, Reindex, Pack, Password Maintenance), that are easy to use. Firstly, some initial information must be entered to the system from the Setup option, in order to be able to continue with Events maintenance. Then, Enquiries and Reports can be provided by the system.

Using the ISF World Gymnasiade 1994 system, is very simple since it is designed for the users convenience. Its friendly menus and messages guide the user throughout the system, in order to be able to perform the required operations.

However, if anything goes wrong, please, refer to this manual for further explanations.
