SAFE DRIVE ... COMPUTERIZED TRAFFIC REGULATION TUTOR!!!

CS /086

KYPRIANOU ANDREAS

JUNE 1992

1. Introduction:

Safe Drive... Computerized Traffic Regulation Tutor was designed to show the proper behaviour that we should have when we use the road by car or on foot. This tutor is very simple to be used and it is suitable for children of primary schools. Also it would be very useful to driving schools. Apart it could be used by car accessories shop for attraction purposes. This tutor is designed to run in VGA mode and if requested it can be used in mouse mode as well. However thank you for using this tutor. If you need more information than the following you can call to:

(04)-631537

or you can write to:
