

HIGHWAY DRAINAGE IN CYPRUS

by

Maria Christoforidou

Project Report

submitted to

the Department of Civil Engineering

of the Higher Technical Institute

Nicosia Cyprus

in partial fulfillment of the requirements

for the diploma of

TECHNICIAN ENGINEER

in

CIVIL ENGINEERING

JUNE 1997

To my parents Soteris and Eleni Christoforidou

ACKNOWLEDGEMENTS

I feel it as my duty to acknowledge the following people for their indeed valuable help that they have offered to me in order to fulfill the present project study.

I would like to express my gratitude to my project supervisor. Mr. I. Economides for his helpful guidance and advice on the fulfillment of the project. My appreciation to Mr. A. Papasozomenos, Executive Engineer A and Mr. G. Kallitsis, Executive Engineer B, in the public works Department for their help at the antiflood study for Kolossi Village.

I would also like to thank my parents and my friends for their support. It would be an omission of my part not to acknowledge my cousins Niki Kourou and Stella Stavrou whose kindly undertook the typing of the whole study.

SUMMARY

The objectives of this project was to:

- ⇒ write an account of the necessity of drainage in Highways.
- ⇒ Discuss how various drainage structures are designed
- ⇒ Write an account of the maintenance of highway drainage structures
- ⇒ Make a survey of the Cyprus Practice.

TABLE OF CONTENTS

	PAGES
ACKNOWLEDGEMENTS	
SUMMARY	
CONTENTS	
CHAPTER 1	
Introduction	1
Surface Hydrology	
CHAPTER 2	
Introduction	7
Precipitation	
Rainfall - Intensity	
Duration	8
Frequency	
Runoff and Factors affecting it	9
Climate factors	17
Rainfall/runoff correlation	19
Risk and Economics	21
Risk	
Loss of life	
Property Damage	
Traffic Interruption	
Economics	
Rainfall - Runoff methods	31
Rainfall Duration Usefor	33
Design	
Burkli - Ziegler formula	36
The rational method	36
Hydrograph Method	
Estimation of floods in Cyprus	41
Vathias river catchment	44
CHAPTER 3	
Hydraulic desing principles in surface drainage	45
Introduction	45
Channels	45
Longitudinal ditches	45
Open - Channel drainage ditches	46
Roadside and Median Channels	49
Hydraulics of Open - Channel flow	52

Drainage of carriageway	
Surfaces	58
Open Graded Asphalt	
Surface Course	62
Design of Gutters	64
Culverts	
Culvert Inlets and Outlets	66
Debris Barriers	68
Culvert hydraulics	69
Storm drains	74
Design of storm drains	
CHAPTER 4	
Maintenance	81
CHAPTER 5
