## **Introduction**

This program was created in order to help students and other individuals that are interested in learning programming in Pascal. It contains a tutorial for the Pascal language, separate examples and exercises for each chapter, Lab & Home Assignments with their solutions as well as past examinations papers.

## **How to use this manual**

This manual was created in order to help the users how to run the program, how to install the program to the user's local disk, and how to navigate through the tutorial. This manual also explains in detail the function of each button that you will find in the tutorial.
