

HIGHER TECHNICAL INSTITUTE

ELECTRICAL ENGINEERING COURSE

Diploma project

DIAKOS IOANNIS

3E1

ABSTRACT

This project deals with the electrical installation design of a group of hotel appartments.

The project is devided into three parts.

In the first part is presented the technical information related to the electrical installation of the appartments.

The second part covers the actual design.

In the third part all the necessary leaflets, tables and drawings are included.

CONTENTS

ABSTRACT

INTRODUCTION

PART I:

CHAPTER ONE: EARTHING

CHAPTER TWO: ILLUMINATION

CHAPTER THREE: STAIRCASE SWITCH

PART II:

CHAPTER ONE: ILLUMINATION DESIGN

CHAPTER TWO: ELECTRICAL DESIGN

2.1 INTRODUCTION

2.2 LIGHTING DESIGN

2.3 SOCKET OUTLET DESIGN

2.4 COOKER UNIT DESIGN

2.5 WATER HEATER DESIGN

2.6 LIFT MOTOR DESIGN

2.7 WATER PUMP DESIGN

2.8 FCU DESIGN

2.9 AIR-CONDITIONING DESIGN

CHAPTER THREE: SUPPLY CABLES-DIVERSITY

CHAPTER FOUR: BALANCING

CHAPTER FIVE: FAULT LEVEL CALCULATIONS

CONCLUSIONS

PART III:
