TABLE OF CONTENTS

Acknowledgement	5
Introduction	6

Chapter 1: The Concept of the project

Introduction	7
1.1 Internet.....	7
1.2 Communication Protocols	8
1.3 World Wide Web	8
1.4 Other Internet Services	9
1.5 HTTP.....	10
1.6 JAVA.....	11
1.7 Choice of language and program for designing.....	12

Chapter 2: Macromedia Dreamweaver MX

2.1 What is Macromedia Dreamweaver MX.....	15
2.2 Designing with Macromedia Dreamweaver MX.....	15
2.2.1 Create and modify a table.....	15
2.2.2 Insert a table	16
2.2.3 Modify the table.....	18
2.2.4 Merge and Split sells.....	19
2.2.5 Change row height and column width	21
2.3 Cascading Style Sheets (CSS)	22
2.3.1 Open a document to work in	22
2.3.2 Redefine an HTML tag	24
2.3.3 Set a page background color	25
2.3.4 Set a style for links	27
2.3.5 Export styles to create an external style sheet	29
2.3.6 Attach an external style sheet	29

Chapter 3: Designing of the web page

3.1 The tree of the web page	31
3.2 HTI Informations	32
3.3 Industrial Training	35
3.4 Departments	35
3.4.1 Electrical Department	35
3.4.1.1 Department Description	36
3.4.1.2 Courses	38
3.4.2 Mechanical Department	42
3.4.2.1 Department Description.....	42
3.4.2.2 Courses	42

3.4.2.3 Marine Engineering Courses	45
3.4.3 Civil Department	49
3.4.3.1 Department Description	49
3.4.3.2 Courses	49
3.4.4 Computer Department	52
3.4.4.1 Department Description	52
3.4.4.2 Courses	53
3.5 Life in Cyprus	56
Conclusion	59
Appendices	61
Bibliography.....	60

Acknowledgement

I would like to express my thanks to my project supervisor Dr. Marios Kassinopoulos lecturer at Higher Technical Institute , for helping me to overcome any difficulties regarding my project.

I would like also to thank Mr. S. Voskarides who assisted me in order to design the web page.

Introduction

The concept of this project is to transfer the most important informations about Higher Technical Institute (HTI.) to students from other countries which want to study at our institute (HTI).

An easy way of doing this is to create a web page and publish it to the internet. This will give the possibility to many people to visit this page.

This web page started as an idea of students and lecturers from the Higher Technical Institute and from Institute Univercitaire de Technolodie (IUT) Bourges in France. This page was designed by students in HTI (Andreas Stratioti and Stelios Papanicolaou) in collaboration with students of IUT (Pierre Vincent Ferrat , Alexandre Avezou , Nelson Marques and Dimitri Roche) and contains useful informations that Erasmus students must know about the two institutes and student's life in both institutions. All informations will be upgraded and will be maintained by the students.

There will be two web pages , one for the HTI , Nicosia in English and one for IUT Bourges in French and English. The first page will be common giving the choice to the user to choose the information he wants.

The project includes the web page and printed information package about HTI.
