# 1. I N T R O D U C I N G T H E S Y S T E M

## 1.1 THIS IS THE BET-SHOP SYSTEM

The Bet-Shop system is a program designed to keep all information related with football teams from the English, Scottish, Italian, French, Spanish, German, Deutch and Belgium Championships, and to help the user to do his work in an easy and efficient way. It gives you the chance to use the possibilities of a personal computer and other peripheral devices (such as Crt, Printer etc).

## 1.2 HOW TO USE THIS SYSTEM

The Bet-shop system is very easy to be used. All you have to do is to open your personal computer and do the right choices, using the help screen and all other menus that exist to make your life easier.

With the Bet-Shop system you can:

-- Maintain a list of files that concern:

- (1) All countries
- (2) All divisions of the countries.
- (3) All teams of the divisions.
- (4) All the fixtures for the current year.
- (5) All the results for the current year.
- (6) All the postponed games.
- (7) Games for the last six years.

-- Create the necessary and appropriate reports that will be useful at the right time and whenever you need them.

-- Use the utilities that are available to help you when some difficulties occur and to give you the confidence of security while working with the system.

If you have problems then the User Manual of the system will help you to solve all your doubts, by placing you again to the right way.

### 1.3 HOW TO USE THIS MANUAL

The User Manual of the Bet-Shop system is also very easy in use, so you don't have to spend much time to read it. This manual is divided into sections that each one provides help for each part of the system. Due to this partition you can easily and quickly find what you are looking for. A more detailed study of this manual is recommended for users of initial use with the system.
