

Visibility on Highway
Project Report Submitted
by
ANDREAS P. PAMBAKAS

in part satisfaction of the award
of Diploma of Technician Engineer
in Civil Engineering
of the Higher Technical Institute
Cyprus

Project Supervisor: Mr N. Kathijotes
Lecturer in Civil Engineering Dept.
H.T.I

Type of project: Individual

June 1995

HIGHER TECHNICAL INSTITUTE	PROJECT NO 2404
----------------------------------	--------------------

Summary:

The purpose of this project is to investigate visibility on highway , junction & roundabouts & to give recommendations to improve it.

To improve this

a) Sight Distance on highway which was examined that tend to stop or overtake with safety. Also critiria for measuring Sight Distance were discussed. Some variations for horizontal & vertical curves are mentioned.

b) Road lighting was examined for junctions where the traffic is channelled to ensure effective working, and for roundabouts where the driver should have adequate forward vision to enable him to see traffic entering from left and to decide whether it is safe to proceed.

SUMMARY

INTRODUCTION

Chapter I: Sight distance

Introduction	3
Definition	4
Sight Distance	5
Safe stopping sight distance	5
Perception & Reaction time	5
Braking distance	7
Effect of grade stopping	8
Variation for trucks	9
Decision stopping sight Distance	9
Criteria	11
Premaneuve Time	11
Detection & Recognition times	12
Decision & Response initiation times	12
Manoeuvre time	13
Safe Passing Sight Distance	13
Effect of grade on Passing Sight Distance	17
Frequency & length of Passing Sections	17
Sight Distance for Multiplane Highway	18
Criteria for Measuring Passing Sight Distance	20
Stopping Sight Distance object	21
Passing sight Distance object	21
Sight obstructions	22
Sight Distance on Horizontal Curves	23
Stopping Sight Distance	23
Passing Sight Distance	25
Sight Distance on Venatical Curves	26
Crest Vertical Curves	26
Design Control - Stopping sight distance	26
Design Controls - passing sight distance	28
Say Vertical Curves	29
Tables	31
Figures	34
Photographs	41

Chapter 2: Road lighting	
Introduction	44
Definitions	45
Section 1: Lighting of single - level sections	47
Function of lighting	47
Particular types of junction	47
Staggered - junctions	49
Cross - road	49
Y & Fork Junctions	50
Symmetrical fork Junctions	51
Complex single - level Junctions	51
Junctions with ghost of traffic Islands	52
Sections 2: Lighting of Roundabouts	53
Functions of lighting	53
Lighting arrangements	54
General	54
Siting of columns	54
Set back of columns	55
Mounting height	56
Lanterns & light distribution	56
Road surface illuminance	56
Pedestrian crossing across approach road	57
Figures	
Photographs
