**COURSE IN COMPUTER STUDIES**

**DIPLOMA PROJECT**

LIMASSOL GENERAL HOSPITAL  
NEPHROLOGIC DEPARTMENT SYSTEM

CHRYSOVALANTIS MENELAOU

*CS/366*

JUNE 2006

HIGHER TECHNICAL INSTITUTE	PROJECT NO <i>3624</i>
----------------------------------	---------------------------

## **Introduction**

The Nephrologic department of the Limassol General Hospital is the department responsible for the caring and treatment of patients that have problems with their kidneys and they need special treatment such as hemodialysis. Also, it deals with patients who need transplantation. The department deals with a rather high number of patients daily and these patients need daily caring and treatment. So, the transactions recorded every day in the patients' files are vast.

All these information about the patients treatment and their personal info are recorded manually in the files. This results to several disadvantages like the huge amount of data stored (Every patient has his own personal file where all his personal and treatment information are being stored), the risk of losing data is very high, it is very time consuming and very difficult to handle.

The scope of this project is to create a computerized system based on the existing manual system, being able to handle and store all these data and provide various facilities for making the new system quicker and better than the existing one.

The expected outcome of this project is a complete system analysis, a user manual for the new system and finally, a computer system ready for installation.

## TABLE OF CONTENTS:

	Page
<b>Introduction</b>	<b>1</b>
<b>Activity 1: REQUIREMENTS GATHERING</b>	<b>2</b>
<b>1.1 INFORMATION ABOUT THE ORGANIZATION.....</b>	<b>2</b>
<b>1.2 Goal of the Organization.....</b>	<b>2</b>
<b>1.3 INFORMATION ABOUT THE WORK .....</b>	<b>3</b>
<b>ACTIVITY 2: EXISTING SYSTEM REVIEW.....</b>	<b>5</b>
<b>2.1 Input Description .....</b>	<b>5</b>
<b>2.2 Output Description .....</b>	<b>6</b>
<b>2.3 Work Flow.....</b>	<b>8</b>
<b>ACTIVITY 3: NEW SYSTEM DESIGN.....</b>	<b>9</b>
<b>3.1 Design the application architecture.....</b>	<b>9</b>

---

## **APPENDICES:**

<b>Appendix A1</b>	<b>.....</b>	<b>Input Forms</b>
<b>Appendix A2</b>	<b>.....</b>	<b>Output Forms</b>
<b>Appendix B1</b>	<b>.....</b>	<b>DFDS</b>
<b>Appendix B2</b>	<b>.....</b>	<b>ER Model</b>
<b>Appendix B3</b>	<b>.....</b>	<b>Data Dictionary</b>
<b>Appendix C1</b>	<b>.....</b>	<b>Structured Chart</b>
<b>Appendix C2</b>	<b>.....</b>	<b>Relational Data Model</b>
