

DURABILITY OF CONCRETE

BY

HASAPIS KYRIACOS

Project Report
Submitted to
the Department of Civil Engineering
of the Higher Technical Institute
Nicosia Cyprus

In partial fulfillment of the
requirements for the diploma of

TECHNICIAN ENGINEER
IN
CIVIL ENGINEERING

JUNE 1996

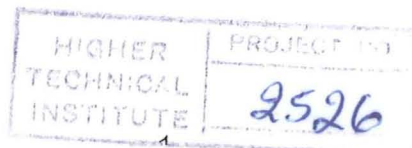

TABLE OF CONTENTS

Chapter I

Durability of reinforced concrete	04 - 07
The side line to the chronic damages ^d of reinforced concrete	08 - 09
Oxidation of reinforcement	10

Chapter II

Chemical Reaction	
Alkali-Silica reaction	11 - 17
Carbonation	18 - 23
Natural Reaction	24 - 26

Chapter III

Methods and materials for the repairing of reinforced concrete	27
Methods of discovering causes of reinforced concrete	28 - 29
Choice of repairing materials	30 - 31
Preparation of waiting area	32 - 33
Preparation replacement of reinforcement	34 - 35
Repairing material	36 - 41
