HIGHER TECHNICAL	PROJECT NO 1100
---------------------	--------------------

ABSTRACT

In writing this project, I have attempted with the various materials and items used, for wall and floor finishes.

In analytical reference is made to both categories of finishes with detailed information as far as their properties, appearance, uses, way of application and maintenance are concerned.

In my attempt to provide a more visual approach to the various finishes, I found it useful and necessary to include photographs, pictures for finishes. The project commence with a chapter on the need and choice of finishes.

After this the Chapter 2 and 3 follow, with the various types of wall and floor finishes. Finally a cost of floor and wall finishes is given for a residential house.

It is hoped that the subject matter has presented in a fashion so that all these information about finishes will provide and help the reader to solve the various problems involved in choosing the most suitable finishes.

ABSTRACT

1.	INTRODUCTION	
	The need of floor and wall finishes	1
	1.1. Floor finishes	1
	1.2. Wall finishes	1
	1.3. Selection	2
2.	WALL FINISHES	
A.	External wall finishes	
	2A1. Perlocem spray (sprit)	5
	2A2. Pelecrete relief (sagre)	9
	2A4. Perlotex fine and coarse	13
	2A5. Perlotex matt	16
	2A6. Fouhta wall finishing	20
	2A7. Sandex	21
B.	Internal wall finishes	
	2B1. Ceramic wall tiles	24
	2B2. Wall papers	29
	2B3 Mirror wall finishing	32
	2B4 Le "Bois Tisse"	35
C.	External wall finishes	
	2C1. Paints	37
	2C2. Stone finishes	49
3.	FLOOR FINISHES	
	3.1. Terazzo Tiles	59
	3.2. Ceramic floor tiles	62
	3.3. Timber floorings	70
	3.4. Marble	80

3.5. Rubber	82
3.6. Slate	84
3.7. Cork	86
3.8. Flexible technical flooring in tiles or rols.	89
3.9. Ceramiflex	91
3.10. Select super	94
3.11. Fitted carpet	96
4. COST of floor and wall finishes for a residential house	102
5. CONCLUSIONS
