About Multimedia

1.1 Introduction

I would like to welcome you to the Multimedia Guide for the Handball Game. This project has been developed for to complete the requirements to get the diploma of Higher Technical Institute(HTI) during the year 1999-2000.

"Multimedia for the Handball Game", is a multimedia that will help people learn everything about Handball game and the rules behind everything. All this information is given in the multimedia in the form of text, pictures, animations, sounds. All these facilities make the system interesting, easier to be understood and user-friendly. The Multimedia for Handball Game can used for live presentation and for self-study as well.
