

REINFORCED CONCRETE DESIGN OF
A THREE-BEDROOM HOUSE

by

CHRISTAKIS THEOCHAROUS

Project Report

Submitted to

the Department of Civil Engineering
of the Higher Technical Institute
Nicosia Cyprus

in partial fulfillment of the requirements
for the diploma of
TECHNICIAN ENGINEER

in

CIVIL ENGINEERING

June 1993

AKNOWLEDGEMENTS

I hereby wish to express my sincere thanks to all those who contributed in my studies at the Higher Technical Institute.

I would also like to express my deepest gratitude to Mr. M. Poullaides for the advise and guidance that he had given to me through this project.

SUMMARY

The present report deals with the structural analysis and design of the following sections of a three-bedroom house:

- a. Slabs
- b. Staircase
- c. Beams
- d. Columns
- e. Foundations
