DIPLOMA PROJECT

TRAFFIC ANALYSIS

C/993

TSIAMANE KYRIAKOS

JUNE 2004

HIGHER TECHNICAL INSTITUTE	PROJECT NO 3468
----------------------------------	--------------------

## SUMMARY and OBJECTIVES

**Project title:** Traffic analysis

### **Objectives:**

1. To identify traffic problems and conflict points in a traffic network
2. To carry actual traffic counts, or determine valid recent counts
3. To carry accident analysis after the presentation of accident records
4. To suggest corrective measures for the traffic section or intersection

### **Terms and conditions:**

The intersection under investigation was the Leoforos Grivas Digenis Severi in Nicosia. This intersection can be seen on the map provided in the appendix

**Student:** Tsiamane Kyriakos  
**Supervisor** Mr. Nicos Kathijotes

## LIST OF CONTENTS

Part		Page
	Summary and objectives	
	Introduction	1
<b><u>Part 1 – Traffic problems and conflict points in a traffic network</u></b>		
1.1	Conflict points	3
1.2	Traffic problems	7
1.2-1	Traffic flow characteristics	7
1.2-2	Capacity and level of services	9
1.2-3	Traffic congestion	10
1.2-4	Delays	11
1.2-5	Intersection	12
<b><u>Part 2 – Accident Analysis and Traffic Counts</u></b>		
2.1	Accidents	15
2.1-1	Accident studies	18
2.2	Accident at night	22
2.3	Safety	28
2.4	Measurements of traffic flow	30

2.4-1	Studies related with speed and traffic flow	33
2.4-2	Delay studies	36
2.5	Signal controlled junction	38
2.5-1	General	38
2.5-2	Objectives	38

### **Part 3 – Practical part**

3.1	location and description of the junction	48
3.2	Traffic count data	48
3.3	Information regarding street lighting and Assessment of the effectiveness	49
3.4	Analysis of accident records and assessment of safety situation	49
3.5	Accident causes	50
3.6	Solution proposed	50
	Photographs	67
