I would like to express my sincere thanks to Mr. Ch. Crysaphiades, to Mr. Th Hadjicostas and to the personnel of Electricity Authority of Cyprus for their guidance and cooperation during the project period.

A B S T R A C T

This project deals with the investigation of the electromagnetic fields of electrical power lines and with the biological effects of these fields.

Also, calculations and measurements, with the appropriate instruments, of fields were made due to power lines in Cyprus.
