1. INTRODUCTION

The TLD Service System operates in a user friendly environment and also offers some useful utilities that are easy to use and save time as well.

Using the system is very simple, even if you do not have any previous experience with computers. The on-line help facility and this user manual will make it easier for you. You should also refer to the messages that appear at the bottom of the screen.

You must refer to this manual every time you have some difficulties regarding the operation of the system. Everything about the operations of the system is explained in here.
