# CHAPTER 1

## BEFORE YOU START

### 1.1 Introduction

Welcome to the HTI Alumni Information System, a software tool that handle all the information that concerned an HTI Alumni. This System is mainly involved with Alumni registration procedures, Alumni Further studies, Employment and professional qualifications procedures, Alumni personal Information maintenance, maintenance of all related files needed to support the system, backup and recovery procedures, password control, on line facilities etc.

The system has been developed in a user friendly environment using FoxPro for windows. The user can easily understand and manipulate the system. As the user goes through the system he will realize how convenient and easy is to perform the various operations offered by the system.

In the pages that follow the various parts of the system are being described in detail so that the user can go through this manual, for assistance at any point of the system.
