the Department of Civil Engineering  
of the Higher Technical Institute  
Nicosia - Cyprus

in partial fulfillment of the requirements  
for the diploma of  
TECHNICIAN ENGINEER

in

**CIVIL ENGINEERING**

**JUNE 1992**

## A C K N O W L E D G E M E N T S

It is of great importance, before presenting this study, to express my deepest appreciation to those people who helped me, in any way, to present this work.

First of all, I would like to express my gratitude to my Project Supervisor, Mr. A. Kkolos for his helpful and valuable advice.

I am also very grateful to the people of the Department of Antiquities and especially to Mr. Paradouris who helped me with great willingness.

Many thanks I am obliged to give to the people of the library of Archangelos Monastery for their valuable help.

Finally, I thanked all my friends, my parents and my sister who helped me in any way to present this project.

## S U M M A R Y

This project deals with the construction materials used for churches, mainly from an architectural point of view.

The project is divided into four chapters:

The first chapter is the "HISTORY OF ARCHITECTURE - CONSTRUCTION - MATERIALS USED FOR CHURCHES".

The different periods of architecture are studied, beginning with the period of Greeks until the modern times.

The second chapter is the "FORMS OF CHURCHES". Most of the forms are stated, with more emphasis to the two more favourable ones which are used today.

The third chapter is the "CYPRUS CHURCHES". It begins with a short outline of the History of Cyprus and continues with the types and churches constructed in the past and present.

The fourth chapter is the "RESTORATION - REPAIR OF A CHURCH". An old church of Ayios Georgios is studied and a proposed plan is given.

## CONTENTS

### PAGES

ACKNOWLEDGEMENTS

SUMMARY

INTRODUCTION

CHAPTER 1	HISTORY OF ARCHITECTURE - CONSTRUCTION - MATERIALS USED FOR CHURCHES	
	1.1. Temples .....	1
	1.2. Greek temples .....	2
	1.3 Roman Architecture .....	6
	1.4 Early Christian Architecture	10
	1.5 Byzantine Architecture.....	13
	1.6 Romanesque Architecture ....	23
	1.7 Gothic Architecture .....	38
	1.8 Renaissance period .....	41
	1.9 Baroque churches .....	42
CHAPTER 2	FORMS OF CHURCHES	
	2.1 Basilica with dome.....	43
	2.2 Wooden roofed basilica .....	44
	2.3 Architectural details .....	46
