## ACKNOWLEDGEMENTS

I would like to express my sincere appreciation and thanks to my supervisor, Mr M. Poullides for his valuable help and guidance during the preparation of the project

Also I would like to express my thanks to those who helped me in any way to complete this project

This project is dedicated to my parents for their moral support and for the many sacrifices they made for me

Project Supervisor : Mr, M. Poullides  
Kind of project : INDIVIDUAL

## SUMMARY

The objective of this project was the design of a reinforced concrete framework of a two storey house.

After the analysis of the house, typical slabs, beams, columns and foundations, were detailed and their respective bending and shear schedules were prepared.

Finally, the preparation of the architectural drawings of the two storey building were made. The drawings consists of the ground floor plan, first floor slab, roof plan, front, back and side elevations and a longitudinal section.

The design project was according to BS8110.

PAGE No:

1. Acknowledgements
2. Summary
3. Notation
4. Introduction
5. General Informations
6. Design informations
7. CHAPTER I : SLABS 1-60
  - Analysis and design of floor slabs
  - Analysis and design of roof slabs
8. CHAPTER II : BEAMS 61-248
  - Analysis and design of floor beams
  - Analysis and design of roof beams
9. CHAPTER III : COLUMNS 249-268
  - Analysis and design of a corner column  $C_1$
  - Analysis and design of an internal column  $C_5$
10. CHAPTER IV : FOOTINGS 270-277
  - Analysis and design of a footing  $F_1$
  - Analysis and design of a footing  $F_5$
11. APPENDIX : Drawings
