### ABSTRACT

This project is a study of the wall and roof construction and finishes.

The objectives of the project were:

1. To make a detailed study of the Construction of walls and Roofs as used locally.
2. To study fully the various kinds of finishes that can be used on walls and Roofs as discussed above.

At first stage, after some introductory information a study of the construction of walls including functional requirements was made. The types of walls used locally are discussed.

The second chapter deals with the construction of roofs. The types of roofs used locally are discussed in detail.

The third and fourth chapters of this project deal with the various kinds of finishes that can be applied internally and externally on walls and roofs. Also the method of producing them is mentioned.

Conclusions and Comments on the construction and types of wall and roofs as well as for finishes are given at the end of this project.

Acknowledgements.....	I
Contents.....	II
Abstract.....	III
Introduction.....	IV
1. WALL CONSTRUCTION	
1.1 Types of wall.....	1
1.2 Functional Requirements.....	2
1.3 Forms of Construction of walls.....	2
1.2.1 Strength and Stability .....	2
1.2.2 Weather Resistance .....	3
1.2.3 Thermal Insulation.....	3
1.2.4 Sound Insulation .....	4
1.4 Masonry Walls .....	5
1.4.1 Brickwork .....	7
1.4.1(B) Cavity Wall Construction.....	9
1.4.1(C) Openings in Walls.....	12
1.4.2 Blockwork .....	15
1.4.2(A) Crack Control .....	15
1.4.2(B) Openings in Walls.....	16
1.4.3 Curtain Wall System .....	17
2. ROOFS CONSTRUCTION	
2.1 Functional requirements .....	19
2.1.1 Strength and Stability.....	19
2.1.2 Weather Resistance .....	20
2.1.3 Thermal Insulation.....	20
2.1.4 Fire Resistance.....	21
2.1.5 Sound Insulation.....	21
2.2 Types of Roof Structure.....	21
2.2.A Flat Roofs .....	23

2.2.A.1	Reinforced Concrete Flat Roof.....	23
2.2.B	PITCHED ROOFS .....	25
2.2.B.1	Pitched roofs in timber.....	25
2.2.B.2(a)	Single Pitched roofs in timber .....	31
2.2.B.2(b)	Couple roof .....	34
2.2.B.2(c)	Double or purlin roofs.....	37
2.2.B.2(d)	Triple or trussed roofs.....	39
2.2.B.3	Influence of plan shape and roof.....	42
	termination	
2.2.C	Reinforced Concrete pitched roofs.....	45
3.	WALL FINISHES	
A.	EXTERNAL WALL FINISHES .....	48
3.A.1	Tyrolean Finish (SPRIT).....	48
3.A.2	Matt Finishing.....	52
3.A.3	Sagre.....	55
3.A.4(a)	Sandex Matt .....	59
3.A.4(b)	Sandex Textured.....	61
3.A.5	Fair Face Concrete.....	63
3.A.6	Fouhta Wall Finishing.....	64
B.	INTERNAL WALL FINISHES	
3.B.1	Ceramic Wall tiles .....	66
3.B.2	Wall Paper.....	71
3.B.3	Mirror Wall Finishing.....	74
3.B.4	Carlite Plaster.....	76
3.B.5	Perlite Plaster.....	76
C.	EXTERNAL AND INTERNAL WALL FINISHES	
3.C.1	Painting.....	77
3.C.2	Timber Panelled Walls.....	82
3.C.3	Marble and Stone finishes.....	83
4.	ROOF FINISHES	
A.	External roof finishes.....	92
4.A.1	Tiles.....	92
4.A.2	Terrazzo tiles.....	98
4.A.3	Mastic Asphalt.....	100

B.	Internal Roof Finishes .....	102
4.B.1	Aluminium lineal ceiling.....	102
4.B.2	Mineral Fiber.....	104
4.B.3	Painting .....	106
4.B.4	Sagre.....	106
4.B.5	Sprit.....	107
4.B.6	Gloss Finish.....	107
4.B.7	Timber panelled ceilings.....	108
