CIVIL ENGINEERING COURSE

DIPLOMA PROJECT

PRODUCTION OF DRAWINGS WITH THE AID OF A CAD PACKAGE

BY

ASTANIOTIS DEMETRIS

C/822

JUNE 1998

HIGHER TECHNICAL INSTITUTE	PROJECT NO.
----------------------------------	---------------------

2. Summary

The purpose of the project work was to discuss in general the applicability of computer in the production of drawings, to get familiar with a CAD package, and to produce drawings with the aid of the CAD package.

This project work was done with the use of computer and the program, AutoCAD release 14. To work one with AutoCAD, must have some basic Knowledge about windows operation, some basic commands of AutoCAD just to get into the program, set the screen limits, how to use the appropriate scale, how to use dimensions and some other facilities of the program.

Concluding, what one needs working with AutoCAD is experience. The capabilities of AutoCAD have no limits. Drawing with computer is more accurate, easy and time saving, than the traditional way.

LIST OF CONTENTS

	<u>Page No</u>
1. Acknowledgements	1
2. Summary	2
3. Introduction	3 - 4
4. Hardware requirements	5 - 10
• 4.1 System Unit	5
• 4.2 Monitor	5
• 4.3 Hard disc, Floppy Dick, CD - ROM drives	5 - 6
• 4.4 Mouse	6
• 4.5 Digitising tablet	7
• 4.6 Printer	7 - 8
• 4.7 Plotter	8 - 9
5. Getting into the AutoCAD program	11
6. Main Menu	12 - 14
7. Standard Menus	15 - 19
• 7.1 Screen Menus	16
• 7.2 Pull Dawn Menus	16 - 17
8. AutoCAD's command list	20 - 22
9. AutoCAD's AME command list	23 - 25

10. Facilities of AutoCAD's main commands	26 - 41
• 10.1 Layers	26 - 28
• 10.2 Hatch commands	28
• 10.3 Blocks	33 - 35
• 10.4 Dimensioning	36 - 38
• 10.5 Text commands	39 - 41
11. Common commands and operations	42 - 48
12. 3D Design	49 - 53
13. Conclusions	54
14. References	55
15. Figures	56
16. Drawings	57
