1. Introduction

The On-Line Sport Betting is involving with sport bet booking. Is allowing the users to make a bet, of the games that the company offers, by visiting the webpage. So

The system will operate on Windows 98/2000/ME/XP.

The system is designed having in mind the user's convenience. All the procedures are simple enough for the user to understand, under a friendly graphical environment. We also took into consideration, to create a Contact Us section, just in case that somebody face problems and needs guidance.

a. User Interface

For a user-friendly environment, the System supports the following:

- Each page contain graphical representation
- A Contact Us page, is use to email the Administrator with any questions or even suggestions.

b. How to use this manual

By advising the table of contents, you will be able to find very quickly the topic you need help with, whenever you need it. This user manual contains information about all the screens the user may encounter in the On-Line Sport Betting web page, and describes all the operations and processes that are done by the system, in detail.

You can also contact the system's administrator, if for any reason you find difficulties understanding some instructions, or if you happen not to find any solution for your problem.
