

DEVELOPMENT OF A  
PORTABLE AUTOMATIC DIALER FOR ANALOGUE EXCHANGES

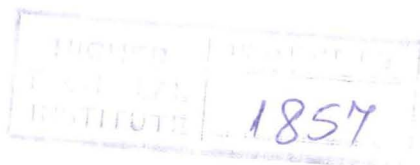

Project report submitted by  
NIKIFOROU SAVVAS

in partial satisfaction of the award of diploma of technician engineer in Electrical Engineering of the Higher Technical Institute, Cyprus.

Project Supervisor: Mr C. Theopemptou  
Lecturer in Electrical  
Engineering Department, HTI.

Type of project: Individual.

June, 1991.

## ABSTRACT

This project deals with the selection, design, construction and testing of the main parts of a Portable Automatic Dialer for Analogue Exchanges. This unit will help the staff of CYTA department at Acropolis (and staff of other departments with analogue exchanges) to test every month all the subscribers meters.

# TABLE OF CONTENTS

## Chapter 1.

1.0	Introduction.....	4
1.1	Modes of operation.....	4
1.2	Main parts of the unit.....	5
1.3	About the project.....	5
1.3.1	Objectives.....	5
1.3.2	Terms and Conditions.....	5

## Chapter 2.

2.0	Introduction.....	6
2.1	Circuit operation.....	6

## Chapter 3.

3.0	The C.P.U. Card.....	8
3.1	Specifications.....	8
3.2	Connections.....	8
3.3	Link-plug connections.....	9
3.4	Target Expansion.....	10
3.5	Testing the C.P.U. board.....	11
3.5	The testing program.....	12
3.6	Interface with the LCD module.....	13

## Chapter 4.

4.0	Introduction.....	14
4.1	LCD Characteristics.....	14
4.2	Pin connections and Functions.....	16
4.3	Instruction Description.....	17
4.3.1	Clear the display.....	18
4.3.2	Return Home.....	18

4.3.3	Entry Mode Set.....	19
4.3.4	Display ON/OFF Control.....	19
4.3.5	Cursor or Shift Display.....	19
4.3.6	Function Set.....	20
4.3.7	Set DD RAM Address.....	20
4.3.9	Read the BUSY FLAG and address.....	20
4.3.10	Read/Write data instructions.....	20
4.4	How to Write on the Display.....	20
4.4.1	Programming the LCD module.....	21
4.4.2	How to Send Messages to the Display.....	22

## Chapter 5.

5.0	Introduction.....	24
5.1	Keyboard requirements.....	24
5.2	4x4 matrix Keyboard.....	24
5.3	Circuit explanation.....	25
5.4	Software subroutine to read the Keyboard...26	

## Chapter 6.

6.0	Introduction.....	30
6.1	Interface card characteristics.....	30
6.3	About dialing.....	32

## Chapter 7.

7.0	Introduction.....	36
7.1	Checkboard.....	36
7.2	Keyboard subroutine.....	37
7.3	Subroutine to send to the Interface card the Keyboard codes.....	40
7.4	Subroutine to write on the LCD.....	44
