

HIGHER TECHNICAL INSTITUTE

MECHANICAL ENGINEERING
DEPARTMENT

DIPLOMA PROJECT

DEVELOPMENT OF A PART RECOGNITION
SYSTEM USING A PLC

BY:

GEORGE CONSTANTINIDES

M/375

JUNE 2000

HIGHER TECHNICAL INSTITUTE

MECHANICAL ENGINEERING DEPARTMENT

DIPLOMA PROJECT

PROJECT NUMBER: M/875

DEVELOPMENT OF A PART RECOGNITION SYSTEM USING A PLC

In partial fulfillment of the requirements for the award of the
Diploma of Technician Engineer in Mechanical Engineering,
at Higher Technical Institute in Cyprus.

Author: George Constandinides

Project Supervisor: Dr. Andreas Stasis

JUNE 2000

HIGHER TECHNICAL INSTITUTE	PROJECT NO. 3163
----------------------------------	-------------------------

To Oksana

**Best friend
Hardest Critic
Lovely wife**

ACKNOWLEDGMENTS

This Project would not have been possible if not for the help of the following people:

Dr. Andreas Stasis, Lecturer in H.T.I. for all his help and supervision in my Project.

My father, for providing me accesses to Andreas Themistocleous workshop in Limassol, Linopetra Industrial area, in order to create various parts of the Project.

Mr. Savvas Savva, for his general knowledge and information on programming controllers

CONTENTS

	Page
1.0 Introduction	
1.1 Scope of work.....	7
1.1.1 The objectives of this Project.....	7
1.1.2 Terms and Conditions.....	7
1.1.3 Summary of the conditions.....	7
1.2 Automation.....	8
1.2.1 Automation Defined	8
1.3 Introduction to Conveyors.....	12
1.3.1 What are Conveyors.....	12
1.4 Introduction to Logic Controllers.....	14
1.4.1 Logic Controllers.....	14
1.4.2 Programmable Logic Devices (PLD's).....	14
1.4.3 Combinational Programmable Logic Devices (CPLD's).....	15
1.4.4 Programmable Logic Controllers (PLC's).....	16
1.5 Part Recognition.....	19
1.5.1 Part Recognition Process.....	19
1.5.2 The Recognition Device.....	19
1.5.3 How it works.....	19
2.0 PLC's	
2.1 Introducing PLC's.....	22
2.1.1 Definition of PLC.....	22
2.1.2 Historical development.....	22
2.1.3 Comparison with other Control Systems.....	24
2.1.4 Advantages.....	27
2.1.5 Disadvantages.....	30
2.2 PLC Architecture.....	31
2.2.1 Introduction to the Architecture of PLC's.....	31
2.2.2 The PLC as a computer.....	31
2.2.3 Examining the PLC Architecture.....	33
2.2.4 Central Processing Unit (CPU).....	34
2.2.5 The Memory.....	37
2.2.6 Input and Output modules.....	38

3.0	Programming Methods	
3.1	Programming Languages.....	42
	3.1.1 In General.....	42
3.2	44
	3.2.1 Basic elements of the language	44
	3.2.2 How Programs Execute.....	44
	3.2.3 Regulations.....	47
3.3	LogicMaster™.....	51
	3.3.1 Product Overview.....	51
	3.3.2 Programming Symbols.....	53
3.4	Programming.....	56
	3.4.1 Explaining the Ladder program.....	56
4.0	Project Costing	
4.1	Costing based on Material Costs.....	62
	4.1.1 Introduction	62
	4.1.2 Analysis of Costs.....	62
	4.1.3 Costing Estimation on Material Cost.....	62
	4.1.4 Comparison to conventional methods.....	62
5.0	Testing and Conclusions	
5.1	The Project.....	64
	5.1.1 Testing.....	64
	5.1.2 Improvements.....	64
	5.1.3 Conclusions.....	65
6.0	References / Bibliography.....	67
7.0	Appendices	
7.1	Drawings	
7.2	Pictures	
7.3	Printed Ladder Program	
7.4	RS Data Sheet "Photodiodes"	
7.5	GE Fanuc Automation, PLC Software Products
