  - Analysis and design of columns
10. CHAPTER IV : FOOTINGS
  - Analysis and design of footings
11. CHAPTER V : SWIMMING POOL
  - Analysis and design of swimming pool
12. DRAWINGS

ACKNOWLEDGEMENTS

We would like to express our sincere appreciation and thanks to our project supervisor Mr M. Poullaides for his valuable guidance during the preparation of this project.

Also we like to express our thanks and appreciation to those who helped as in any way to complete this project and specially to Mr M. Papakyriacou for his useful instructions.

## SUMMARY

The objective of this project was the development of an Area and Design of a two-storey 3-bedroom house as well the design of a swimming pool.

An area of one hectare of land (10000m<sup>2</sup>) was developed into building plots and the roads, green areas required by the regulations were drawn. Architectural drawings of the 3-bedroom house and the swimming pool were drawn in accordance with the local building regulations.

Finally the design and the detailing of the slabs, beams, columns, foundations and swimming pool were made.

The design of the house was according to BS8110 and the design of the swimming pool to BS8007.
