HIGHER TECHNICAL INSTITUTE	PROJECT NO. <i>3331</i>
----------------------------------	----------------------------

Introduction

The idea of this project is to provide the possibility to everybody around the world to access information about the courses offered by the Higher Technical Institute and more specifically by the Electrical Department, through a web site on the internet.

The web site is written in HTML, which stands for Hyper Text Markup Language. HTML is the most popular way for building a web site, and it was chosen to be used for my project, because it offers 100% compatibility with all the available internet browsers, under any known Operating System.

For the construction of this project, Microsoft's Front Page XP software was used as an HTML editor. The reason I selected Front Page XP, is because it's able to manage easily huge web sites with multiple sub pages. Also it can modify different components (such as menus, colors, buttons etc) from all the pages of the web site at the same time, without having to do the changes on each page separately.

INTRODUCTION	1
CHAPTER 1: CONSTRUCTING AND PUBLISHING A WEB SITE	2
THE STEPS TO CREATE A WEB SITE	2
STEP 1: MAKING THE WEB SITE'S TREE	2
STEP 2: DESIGN OF THE LAYOUT	2
STEP 3: INSERTION OF DATA	2
PUBLISHING OUR WEB SITE	3
WEB SPACE	3
UPTIME GUARANTEED BY THE WEB SPACE PROVIDER	3
CONNECTION'S SPEED	3
LIMITATIONS	3
UPLOADING THE WEB SITE	4
DOMAIN NAME REGISTRATION	4
SEARCH ENGINES SUBMISSION	4
CHAPTER 2: SOFTWARE USED	5
HTML EDITOR: MICROSOFT'S FRONT PAGE	5
PICTURE EDITOR: JASC'S PAINT SHOP PRO	6
FLASH ANIMATION SOFTWARE: SWISH	8
CHAPTER 3: DESCRIPTION OF THE PROJECT	10
INTRODUCTION	10
THE STRUCTURE TREE OF THE WEB SITE	10
WORK DONE IN FRONT PAGE XP	12
INTRODUCTION	12
CREATING WEB SITES WITH THE WEB METHOD	12
ADVANTAGES WHEN WORKING A WEB SITE AS WEB	13
THEMES	13
SCREEN RESOLUTION OPTIMIZATION	16
INSERTING THE DATA TO THE PAGES	16
FLASH ANIMATION INTRODUCTION	17
CHAPTER 4: FUTURE EXPANSIONS AND COMMENTS	19
PAGE MODIFICATIONS	19
FUTURE EXPANSIONS	19
PROBLEMS FACED AND WHAT TO AVOID IN THE FUTURE	19
CONCLUSION	21
APPENDIX	22
