TYPE OF PROJECT: INDIVIDUAL

THEODOROU PHOTINI
QUANTITY SURVEYING PRACTICES IN CYPRUS
SUMMARY

The scope of the project is to study the quantity surveying practices in Cyprus:

The objectives of the project were:

1. To carry out the "taking off" measurements of concrete, formwork, reinforcement, brickwork, finishes of the drawings provided.
2. To write a report on the different methods of "taking off" procedures used in Cyprus.
3. To compare the above methods with the SMM7 and point out the differences between the methods mentioned above.

The report on the different methods of "taking off" procedures used in Cyprus was based on visits to local quantity surveying firms and quantity surveyors who work as individuals.

The whole project consists of three chapters. The first chapter refers to a bill preparation processes. At the second chapter a bill of quantities was prepared. The third chapter deals with the quantity surveying practices in Cyprus. Conclusions and comments on the quantity surveying as practiced in Cyprus are given at the end of this project.

Acknowledgements	Section I Acknowledgements	I
Summary	Section II Summary	II
Introduction	Section III Introduction	III
Chapters:	Section IV Chapters	
1. BILL PREPARATION PROCESSES		1
1.1. Dimension paper		1
1.2. Entering Dimensions		2
1.2.1. Spacing of Items		2
1.2.2. Waste calculations		2
1.2.3. Order of Dimensions		3
1.2.4. Timesing		3
1.2.5. Abbreviations and Symbols		4
1.2.6. Measurement of Similar Items		4
1.2.7. Grouping of Dimensions		5
1.2.8. Deductions		6
1.2.9. Measurement of Irregular Figures		6
1.2.10. Alterations to Dimensions		7
1.2.11. Figured Dimensions		8
1.2.12. Use of Schedules		8
1.3. Preparing the abstract		9
1.3.1. Object and nature of the abstract		9
1.3.2. Working up		10
1.3.3. Numbering the Dimension sheets		10
1.3.4. Squaring dimensions		10
1.3.5. Abstracting		11
1.3.5.1. Transfer of Dimensions		11
1.3.5.2. Subdivisions of Abstract		12
1.3.5.3. General Rules of Abstracting		13
1.3.6. Billing		14
1.3.6.1. Introduction		14

1.3.6.2. Referencing of Items	14
1.3.6.3. Entering Quantities in the Bill	15
1.3.6.4. Units of Measurement	15
1.3.6.5. General Rules of Billing	15
2. PREPARATION OF BILL OF QUANTITIES for a given building according to SMM7	18
3. QUANTITY SURVEYING PRACTICES IN CYPRUS	19
3.1. Quantity surveyors in Cyprus	19
3.2. Different methods of "taking off" procedures used in Cyprus and main differences between the above methods and the SMM7.	20
