ACKNOWLEDGEMENTS

I would like to thank Mr. Marios Kasinopoulos about all the support that gave to us from Cyprus and also because he made all the paper work and conducts for us to be here.

I also want to thank Mr. Jean Baillou about his patient with us. Also I want to thank him because of teaching us everything we know about PLCs.

I would also like to thank Mr. Giannis Dimitriou and Mr. Sotos Voskaridis about their trip in France to check us and to inform us about the whole presentation of the project.

Last but not least I would like to thank my family about their financial help and because they stood and believed in me.
