## **Inside this user's manual**

This user's manual offers you information on using the HTI WWW Pages on the Internet.

Chapter 1, "Introduction," offers information about this project in general, its purpose, benefits and objectives.

Chapter 2, "Getting Ready," provides information on installation, what you need before you begin and basic Netscape functions you need to know in order to browse the HTI pages.

Chapter 3, "Getting Started," contains information about HTI Home Page URL, about the Greek Fonts and more information when browsing the page for the first time.

Chapter 4, "HTI Home Pages," provides detail information about all the pages contents, Netscape interface, tutorial on how to browse the pages, buttons and links basics.

# CHAPTER 1

## INTRODUCTION

This project is an HTI Information system that contains not only for Cyprus but also worldwide, the complete data of HTI.

This Home Page presents in both Greek and English with a graphical interface the information about the departments covering the syllabus, the staff and the short courses of each department.

It provides general information about HTI, admission requirements, degree and degree recognition, prospects for degree studies, Industrial Training and IAESTE student's exchange program. Student's Union, HTI Newspaper and Sports are also covered. A page is also implemented giving all the information about ON-ATI BBS.

The Home Page promotes Ongoing Research Projects and participation in National/International Projects. Users can also find links to pages with information about Cyprus and the Cyprus Political Problem. On-Line Enquiries can be made through the search facility to quickly find the subjects you are interested in.
