

SOME CARS HAVE NEW NAMES
 - and that's about all. In every detail the Morris 1100 reveals totally fresh, exciting thinking. Biggest breakthrough of course is in the Hydrolastic suspension which means you could thread a needle or pour out coffee at 60 m.p.h. But consider the following too wolf-whistle styling, only 12 ft. long yet r-o-o-m-i-n-e-s-s for 5 hefty adults. Front-wheel-drive, east/west mounted engine Disc brakes and up to 40 m.p.g. No wonder critics have said, "This car deserves a motoring Oscar"
