## ACKNOWLEDGMENTS

Special thanks to all the people who help me to finish this project. Especially I would like to thank my supervisor Mr. Christos Makarounas for the help offer to me. Also special thanks to Mr. Dionysis Dionysiou, Mrs. Maria Koutsourou, Mr. Stelios Papantoniou all teachers in the Pancyprian Gymnasium for invaluable help offer to me and the for the hours spent for creating this program.

A thank you to my family to for the understanding for all the period of the project

## INTRODUCTION

This user manual created for the program 'Multimedia system for the Pancyprian Gymnasium' and is in part of satisfaction of the award of diploma project of the course in computer studies of the Higher Technical Institute.

Using text and photos from the program this manual is trying to be as clear to understand as possible. The use of refers from the pictures to the text is used extensively because it was find as the best technique for writing manuals. Is useful because there is no need to run the program of reading the manual but is suggested.

The program is simple structured and easy to navigate in it and so this manual tries to be simple and not boring to be read.
