DIPLOMA PROJECT

TRANSPORTATION STUDY - AREA OF
POLEMIDHIA

BY
CHARALAMBO MELEKKI

JUNE 1998

SUMMARY

The purpose of my study on the subject "Transportation study of Polemidhia municipality area" is to give an idea of the existing transportation problems faced in the Polemidhia area.

The project started with an analysis of traffic control devices. Some problems were analysed and some suggestions for improvement of these problems were made.

Then, the project proceeded by analysing the land transportation terminals. The parking problem and types of parking was discussed a lot.

Then some reference was made on Bus system and the types of bus service.

Suggestions for improving the bus system was made.

Also, some measures for enlightenment of the people were introduced, for reducing the number of traffic accidents. An accident analysis was made for the last two years (96-97).

|--------------------------------------|-------------|
| Summary | 1 |
| Introduction | 2 |
| Ano and Kato Polemidhia | 4 |

Chapter 1

1. Traffic Control Devices

| | |
|--|----|
| 1.1. General | 7 |
| 1.2. Highway Traffic Control | 7 |
| 1.2.1. Pavement Markings | 7 |
| 1.2.2. Advantages of pavement Marking | 7 |
| 1.2.3. Disadvantages of pavement | 7 |
| 1.2.4. Standard pavement markings | 7 |
| 1.3. Sings | 8 |
| 1.3.1. Regulatory signs | 10 |
| 1.3.2. Subclassified regulatory sings | 11 |
| 1.3.3. Warning signs | 11 |
| 1.3.4. Gwide Signs | 11 |
| 1.4. Traffic Signls | 17 |
| 1.4.1. Advantages of traffic signals | 17 |
| 1.4.2. Individual traffic signals | 17 |
| 1.5. Signal Systems | 18 |
| 1.5.1. Types of traffic signals | 18 |
| 1.6. Channelization..... | 21 |
| 1.6.1. Principles for determining the design of | 21 |
| Channelized intersections | |
| 1.7. Intersection Design..... | 24 |
| 1.7.1. General types of intersection | 24 |
| 1.7.2. Channelized intersection..... | 26 |
| 1.7.3. Classes of islands | 26 |
| 1.7.4. Grade separations and interchanges | 29 |
| 1.7.5. Warranted of grade separation and interchanges..... | 29 |
| 1.8. Roundabouts..... | 32 |
| 1.8.1. Roundabouts general | 32 |
| 1.8.2. Types of Raundabout | 32 |

| | |
|-------------------------------------|----|
| 1.8.3. Normal Roundabouts | 32 |
| 1.8.4. Signalised Roundabouts | 33 |

Chapter 2

2. Land Transportation terminals

| | |
|--|----|
| 2.1. General | 35 |
| 2.2. The parking problem | 35 |
| 2.2.1. Car ownership | 35 |
| 2.3. Types of parking | 37 |
| 2.3.1. On - Street or curb parking | 37 |
| 2.3.2. Off street parking | 39 |
| 2.3.2.1.Surface parking lots | 39 |
| 2.3.2.2.Malfloor structures or garages | 43 |

Chapter 3

3. Bus System

| | |
|--|----|
| 3.1. Reasons for the low usage of the bus service | 46 |
| 3.2. Types of bus service | 46 |
| 3.3. Marketing plan to encourage the public to use the bus services | 49 |
| 3.4. Activities to increase the use of bus services | 49 |
| 3.5. Bus priority schemes | 49 |
| 3.4. Bus terminals | 52 |

Chapter 4

4. Accident

| | |
|--|----|
| 4.1. Conflict points | 54 |
| 4.2. Pedestrians accidents | 57 |
| 4.3. Drivers accidents | 58 |
| 4.3.1. Cases of drivers accident | 58 |
| 4.3.2. Vehicle defects, bad weather, problematic roads | 59 |
| 4.4. Road accident statistics | 60 |
| 4.4.1. Accident analysis | 60 |
| 4.4.2. Accident district analysis | 61 |
| 4.4.3. Victim analysis | 61 |
| 4.4.4. Category of Deaths according to the use of the road | 62 |
| 4.4.5. Motorcyclists | 62 |
| 4.4.6. Cause according to frequency | 63 |

| | |
|--|-----------|
| 4.4.7. Cause according to severity | 63 |
| 4.4.8. Months item | 63 |
| 4.4.9. Safety belts | 64 |
| Conclusion | 65 |
| References | 66 |
