

HIGHER TECHNICAL INSTITUTE

CIVIL ENGINEERING DEPARTMENT

DIPLOMA PROJECT

COMPUTER DESIGN OF STEELBEAM
USING BASIC

C / 824

BY: ELENA MICHAEL.

JUNE 1999

Computer Design of Steel Beam
using Quick Basic

M. M. E.

by

Eleni Michael

Project report submitted to
the Department of Civil Engineering
of Higher Technical Institute,
Nicosia,
Cyprus,
in partial fulfilment of the requirements
for the diploma of

Technician Engineer

in

Civil Engineering

June 1999

HIGHER TECHNICAL INSTITUTE	PROJECT NO. 2933
----------------------------------	---------------------

CONTENTS

Acknowledgements

Chapter 1 :

Properties of steel

Introduction	1
Elasticity	1
Compressive and Tensile strength	2
Ductility	2

SPECIFICATION 3

TESTING 3

LOAD FACTOR 6

STRUCTURAL STEELWORK SECTIONS 7

APPLIED LOADS

Dead loads 7

Imposed Loads 8

Wind Loads 8

EFFECTS OF THE APPLIED LOADS 8

SIMPLE BEAM DESIGN

Design of beams to resist bending 9

Shear Force in beams 13

Deflection 13

Lateral stability of the compression flange 16

Web buckling and crushing 16

Chapter 2:

BEAM DESIGN (Simplified Approach) 17

FLOW CHART 23

Chapter 3:

What is a computer system 27

Computer Hardware 27

The Central Processing Unit 27

What can a computer do	28
Input/Output operations	29
Processing operations	29
Programming and Software	29
Categories of computer systems	30
Programming ideas become reality	31
System specification review	32
Program identification and description	32
Program coding, testing and documentation	33

INTRODUCTION TO BASIC

Structure of a BASIC program	37
Some advantages of BASIC	38

Chapter 4:

CODING	40
--------	----

Chapter 5:

Problem 1	53
Problem 2	55
Problem 3	57

Requirements and limitations of the program	62
---	----

Conclusions	63
-------------	----

References	64
------------	----

ACKNOWLEDGEMENTS

The author gratefully wishes to make the following acknowledgements:

She would like to express her appreciation for the valuable assistance and guidance to her at the beginning of this project to Dr Tjionis George her project supervisor.

She also feel the oblication to thank her friend Mr Ch. Theocharides for his valuable help in coding the program in BASIC language.

Special thanks to Mr Andreas Xirichis and Mrs Marianna Mourouzi for lending her some books refering to BASIC.
