PEDIGREE SYSTEM - USER MANUAL

1. INTRODUCTION

1.1 How to use this manual

This manual is developed to help the users to understand the system. In this manual, a fully description of the system is being carried out. The logical structure of the modules as well as the forms used within the system is described. The structure of data files and ways to maintain them are explain in order to help system operators to maintain the system.

A step by step guide through the system function is carried out to help users to learn how to use the system.

Using this manual the user will learn how easy is to:

- Add, Remove or modify the student information.
- Add, Remove or modify the family information.
- Using all the functions of the forms.
- Provide various useful Reports and Notifications.
- Using the Utilization procedures, and how they can help him.
- Using any other functions of the system.
- Backup and Restore of the system.
