CIVIL ENGINEERING COURSE

DIPLOMA PROJECT

WASTEWATER REUSE INVESTIGATION

C/796

FLOURIS STELIOS

PRINGIPAS COSTANTINOS

JUNE 1997

**WASTEWATER REUSE
INVESTIGATION**

**BY
STELIOS FLOURIS
AND
PRINGIPAS COSTANTINOS**

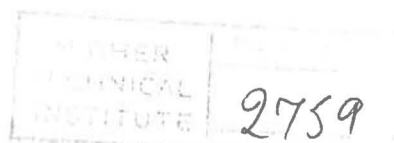

**Project Report
Submitted to
the Department of Civil Engineering
of the Higher Technical Institute
Nicosia, Cyprus
in partial fulfillment of the requirements
for the diploma of**

TECHNICIAN ENGINEER

in

CIVIL ENGINEERING

JUNE 1997

**I dedicate the project to my sister
who studies in Bulgaria and to my
family for their support.**

Stelios Flouris

**I dedicate this project to my family
especially my two sisters for their
love and support in all my steps. I
would also like to dedicate this
project to all my fellow students
especially to my two best friends
Andreas and Pambos for the best
times we have together. I hope that
the following years in the U.S.A.
will be even better (I am sure you
known what I mean). I wish you all
Merry Christmas and a happy new
year.**

Pringipas Constantinos

TABLE OF CONTENTS

Table of Contents.....	i
Acknowledgments.....	iv
Summary/objectives.....	v
CHAPTER 1:	1
1. Introduction	
CHAPTER 2:	3
2. Theory	
2.1. Lysimeter as a Research Method.....	4
2.2. Wastewater Characteristics.....	4
2.1.1. Physical Characteristics.....	7
2.2.1.1. Suspended Solids.....	7
2.2.1.2. Turbidity.....	7
2.2.1.3. Color.....	8
2.2.1.4. Taste and Odor.....	8
2.2.1.5. Temperature.....	8
2.2.2. Chemical Characteristics.....	9
2.2.2.1. Total Dissolved Solids.....	9
2.2.2.2. Alkalinity.....	9
2.2.2.3. Hardness.....	10
2.2.2.4. Fluoride.....	10
2.2.2.5. Metals.....	10
2.2.2.6. Organics.....	11
2.2.2.7. Nutrients.....	11
2.2.3. Biological Characteristics.....	12
2.2.3.1. Pathogens.....	13
2.2.3.2. Pathogen Indicators.....	14
2.3. Soil Characteristics.....	16

2.3.1.	The Soil Profile and its Layers.....	16
2.3.2.	Topsoil and subsoil	17
2.3.3.	Mineral (Inorganic) and Organic Soils.....	18
2.3.4.	Mineral Soils.....	18
2.4.	Organic Matter.....	19
2.4.1.	Sources.....	19
2.4.2.	Organic Compound.....	20
2.4.3.	Carbon Cycles.....	21
2.4.4.	Humus.....	23
2.4.5.	Influence of Organics Matter on Soil Properties.....	23
2.5.	pH	24
2.5.1.	Acidity and Alkalinity.....	24
2.5.2.	Source of Hydrogen and Hydroxide Ions	25
2.5.2.1.	Strongly Acid Soils.....	25
2.5.2.2.	Moderately Acid Soils	26
2.5.2.3.	Neutral to Alkaline Soils	28
2.5.2.4	Higher Plants and pH.....	29
CHAPTER 3	31
3.1.	Wastewater Reuse for Irrigation in Cyprus.....	32
3.2.	Research Done.....	34
CHAPTER 4	37
4.	Results	
4.1.	Evaluation of Organic Matter.....	38
4.2.	Evaluation of pH.....	39
4.3.	Explanation of Tables.....	40
	TABLES	41-46
	GRAPHS	47-52

CHAPTER 553
5.1 **Conclusions**54

ACKNOWLEDGMENTS

We would like to express our sincere appreciation and thanks to those who have helped us preparing this project.

Firstly we would like to thank our supervisor Mr. N. Kathijotes, Senior Lecturer of the Higher Technical Institute for his valuable help during the preparation of this project.

Then we would like to express our deepest gratitude to Mrs. Evi Theopemptou of the Sewage Board of Nicosia for her remarkable help.

We also like to thank Mr. P. Pelekanos, Lab Assistant of the Higher Technical Institute and Mr. Ch. Kouloumbri of 3C1 for their help in the accomplishment of this work.

Finally we are very grateful to Mr. A. Avgousti who has undertaken the typing and printing of our project.

**HIGHER TECHNICAL INSTITUTE
NICOSIA, CYPRUS**

CIVIL ENGINEERING DEPARTMENT
Academic year 1996/97
Diploma Project No. C/796

TITLE: Wastewater Reuse Investigations

SUMMARY/OBJECTIVES

1. To comment on available literature regarding wastewater reuse.
2. To carry out experiments on soil samples on pH variations throughout the soil profile.
3. To carry out experiments on organic matter composition of soil treated with wastewater.
4. To compare treated with non-treated soil samples.
5. To comment on the relation between pH and organic matter.

Terms and Conditions

1. The experiments will be carried out at the H.T.I. premises.
2. Samples will be taken from the H.T.I. Environmental Research Station.

Student : 1. Flouris Stelios
 2. Pringipas Constantinos

Supervisor : Mr. N. Kathijotes

External Assessor : Mr. Chr. Kambanellas
