1. Introduction

1.1. Welcome to the system

First of all I would like to thank you for using my program. This system created for the achievement of H.T.I diploma needs for the year 2006.

This manual will help you for the following:

- Installation of a server and a client
- How to use the system
- How to manage the system

1.2. Contents of the package

This package except of this manual will include and a CD with all the necessary programs that needed for the installation of the server and client site.
