## **ACKNOWLEDGEMENTS**

I would like to express my acknowledgment to the members of staff of the Higher Technical Institute who during the last three years helped me in any way with my studies.

Special acknowledgments in due to Mr. A. Kkolos Lecturer in the Civil Engineering department of the HTI, project supervision, for his valuable help and active and continuous supervision in carrying out this project. Further, I would like to express me thanks to all those who helped me in any way for carrying out this project.

## DEDICATIONS

I would like to dedicate this project to my parents,

NICOTSARAS CHARALAMBOS

NICOTSARA CHRYSTALLA

for their support and guidance during my year of studies at the Higher technical  
Institute.

N. Nicotsaras

## SUMMARY

The object of this project was to prepare a Bill of Quantities for a given house, by using the traditional method of measurement and the Smm7.

The taking off of this house, as well as the squaring and abstracting and billing, was executed in such a way that any qualified surveyor can carry out the work from any point without any difficulties.

## CONTENTS

1) THE BILL OF QUANTITIES	1
1.1 What is the Bill of Quantities	
1.2 The content of a bill of quantities	2
