HOW TO USE THIS MANUAL INTRODUCTION

This is the Users Manual for the 'Image Processing of Histopathological Specimens' system. This manual is a fully explanatory and easy to use guide for all the operations of the system. Please see 'HOW TO USE THIS MANUAL' and 'HOW TO FIND IT' in order to get a clear view of what this system can offer to you and how.

The second section describes the system and what the user can expect to see when he starts using it.

Finally, the third section presents to the user the most important aspects of the system's operation.

If you are a beginner, you will find a view of the system's operation and a detailed description of the system's input is required in the next section.

NOTE

It is important to note that this system has been designed to be used with the 'Image Processing of Histopathological Specimens' system. It is not a stand-alone system and it is not a two-dimensional system.
