

**SAFETY MEASURES AND PROCEDURES  
IN METAL WORKING INDUSTRY**

by:

Ioannou Panayiotis

Project Report  
submitted to  
the Department of Mechanical Engineering  
of the Higher Technical Institute  
Nicosia Cyprus

In partial fulfillment of the  
requirements for the diploma of

**TECHNICIAN ENGINEER**

**MECHANICAL ENGINEERING**

June 1991

## AKNOWLEDGMENTS

I would like to thank my project supervisor, Mr. D. Rousias, lecturer in Mechanical Engineering Department, for his guidance and help given through the project.

My thanks extend to the Management and personnel of Archimides Industry as well as to the officers of the Ministry of Labour for their continuous help and information.

## SUMMARY

This project deals with the design of health and safety procedures for Archimides Industry. The working environment conditions, and equipment are studied and improvements for safer working conditions are suggested. The machines used in this industry are investigated, new safer conditions are designed, and suggestions for improvements are made.

An attempt is also made to raise the important factor that affects health conditions in industries, which is, ergonomics.

Finally the project deals with, the management of the industry and its contribution to health and safety of the employees. This is very important for ensuring safety in the industry.

## ACKNOWLEDGEMENT

## SUMMARY

## INTRODUCTION

1.	CHAPTER 1 - SAFETY PROCEDURES FOR ARC WELDING	
1.1	Introduction	2
1.2	Dangers and effects of fumes in arc welding	2
1.3	Methods for removing unwanted fumes	5
1.3.1	Ventilation requirements of the industry	5
1.3.2	Purpose of an exhaust ventilation system	5
1.3.3	Bench welding	7
1.3.4	Floor welding	7
1.3.5	Respirators	7
1.4	Ignition of flammable materials	9
1.5	Eye hazards	11
1.6	Burns	11
1.6.1	Gloves	11
1.6.2	Safety Boots and leggings	14
1.6.3	Aprons	14
1.7	Hazards from disposable Butane cigarette lighters	14
1.8	Electric hazards	14
2.	CHAPTER 2 - SAFETY PROCEDURES FOR GAS WELDING	
2.1	Introduction	18
2.2	Health hazards in gas welding	18
2.3	The gas cylinders	18

2.3.1	Safety instructions about gas cylinders	18
2.4	Pressure regulators	19
2.4.1	Gas gauges	19
2.4.2	Blowpipes	19
2.4.3	Hoses	19
2.4.4	Safety instructions about gas welding equipment	19
2.5	Instructions for work premises	20
3.	<b>CHAPTER 3 - ERGONOMICS</b>	
3.1	Introduction	23
3.2	Lighting	23
3.3	Noise	24
3.4	Ergonomics applied to the layout of a workplace	24
3.5	Ergonomics applied to machines and controls	26
3.6	Lifting	28
4.	<b>CHAPTER 4 - SAFETY PROCEDURES IN THE USE OF DRILLING MACHINES</b>	
4.1	Introduction	35
4.2	Hazards from using drilling machines	35
4.3	Dangers from long hair	35
4.4	Dangers from wearing gloves during operation	36
4.5	Guarding methods	
4.5.1	Adjustable guard	36
4.5.2	Collapsible guard	36
4.5.3	Built in guard	40
4.5.4	Trip bar and brake	40
4.6	Safety instructions for drilling machines	40

**CONTENTS**

**PAGE**

5.	<b>CHAPTER 5 - SAFETY PROCEDURES IN THE USE OF</b>	
----	--	--

## GUILLOTIN SHEARS

5.1	Introduction	45
5.2	Front guard	45
5.2.2	Back guard	45
5.2.3	Throat guard	48
5.2.4	Guarding of other parts	48
5.3	Guard construction	48
5.4	Machine safety	48

## 6. CHAPTER 6 - SAFETY IN THE USE OF PRESSES

6.1	Introduction	52
6.2	Guarding methods for presses	52
6.2.1	Electrosensing devices	53
6.2.2	Automatic guards	53
6.2.2.1	Automatic push away screen guard	53
6.2.3	Interlocked guards	55
6.2.3.1	Screen guards	55
6.2.3.2	Clutch Interlock	55
6.2.3.3	Guard control	58
6.2.4	Enclosed tools	58
6.2.5	Fixed guard	58
6.2.6	Distance bar trip guard	59
6.2.7	Maintenance of Presses	59

## 7. CHAPTER 7 - MANAGER'S CONTRIBUTION TO SAFETY

7.1	Introduction	63
7.2	Value of a safety officer	63
7.3	What is a safety officer	65
7.4	Responsibilities of a safety officer	65

## CONTENTS

7.5	Safety policy	66
7.6	Health and safety committee	66
7.7	Safe systems of work	66

7.8	Training and development	67
7.9	Incident recording	67
7.10	Regulations and arrangement for plant and machinery safety	67
7.11	Guards	68
7.12	Training in the use of tools and equipment	68
7.13	Escape provisions	68
7.14	Responsibility for cranes and forklifts trolleys	68
7.15	Personal protective equipment	69
7.16	Welfare considerations	69
7.17	First Aid	69
8.	<b>CHAPTER 8 - CHECKLISTS</b>	71
9.	<b>CHAPTER 9 - COST ESTIMATIONS</b>	83
	<b>PLAN LAYOUT OF ARCHIMIDES INDUSTRY</b>	86
