## **1. Introduction**

This project is an electronic web based job hunting and recruitment system for seekers all over the world who would like to be employee in Cyprus and for recruiters in Cyprus looking to employee people. The fact that this is a web based system this makes it accessible to almost everyone and every place in the world where an internet connection can be found. This and the fact that all services will be offered for free makes it an irresistible choice for both seekers and recruiters looking for jobs. This manual aims to give a general introduction to the system and be helpful for both users and recruiters. It will give the basic forms of every user
