**DESIGN OF THE ELECTRICAL
SERVICES OF HOTEL APPARTMENS**

E/953

By: IOANNOU PAVLOS

JUNE 1995

Design of the electrical installation of a Group of Hotel apartments.

Project Report Submitted by Pavlos Ioannou, in part satisfaction of the award
of Diploma of Technical Engineering of the Higher Technical Institute,
Cyprus.

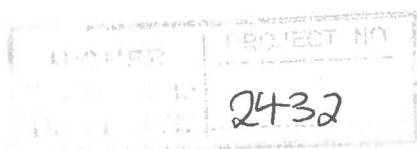

Project Supervisor Mr. Michael

Lecturer in Electrical Engineering H.T.I.

External Assessor :

Type of project : Individual Group

June 1995

To

My family

For all their help which they offered me with love and understanding throughout my years at the H.T.I. and especially throughout this project.

Acknowledgement

I would like to express my thanks to my project supervisor Mr. Michael for his guidance given throughout the project period.

My thanks also go to all those who in anyway helped me and gave me courage during the design period of this project.

Abstract

This project deals with the design of the electrical and telecommunication services of Hotel apartments. The project work includes specifications and tender drawing as well as typical calculations of the design carried out.

The whole design is made according to the relevant for each system regulations.
