1. INTRODUCTION

1.1 How to use the User Manual

The given manual is provided to the users in order to help them through the operation of the program. Any difficulties encountered according to navigation, functions or even to get to know the sequence and the flow of the form of the system it is recommended for the users to review this manual.

Each form has a straight forward menu and all functions are similar for all the forms.

For any problems encountered that do not seem to be solved by this manual it would be desirable to contact the system developer for further information.

1.2 Work Environment

The Growth Hormone study System has been developed in ACCESS 2000 under WINDOWS MILLENNIUM environment. In order to achieve the operation of the system then ACCESS 2000, and WINDOWS MILLENNIUM is required.
