

PRODUCTION OF DRAWING WITH
THE AID OF A CAD PACKAGE

BY

KOFTEROS ANDREAS

Project Report

Submitted to:

THE DEPARTMENT OF CIVIL ENGINEERING

of the

HIGHER TECHNICAL INSTITUTE

NICOSIA, CYPRUS

in the partial fulfillment of the requirements
for the diploma of

TECHNICIAN ENGINEER

in

CIVIL ENGINEERING

JUNE 1994

1. Acknowledgements

I would like to thank my project supervisor Mr K. Anastasiades, for his encouraging, help and advise on the completion of this project.

My grateful thanks to Mr Panos Panayiotou (Architect - Civil Engineer), for helping me, in the selection of the drawing to be used.

2. Summary

The purpose of the project work was to discuss in general the applicability of computer in the production of drawings, to get familiar with a CAD package, and to produce drawings with the aid of the CAD package.

This project work is done by the use of computer and the program, AutoCAD release 11. What one must know to work with AutoCAD was some basic knowledge about DOS operation, and some basic command just to get into AutoCAD, set the screen limits, how to use the appropriate scale, how to use dimensions and some other facilities of the program.

Basically what one needs working AutoCAD is experience. The capabilities of AutoCAD has no limit. Anything that can be drawn by hand it can be created by AutoCAD more easily, quickly and accurately.

	Page No
1. Acknowledgements	1
2. Summary	2
3. Indroduction	3-4
4. The minimum system requirements	5-10
- 4.1 A monitor	
- 4.2 System unit	
- 4.3 Pointing device	
- 4.4 Printers and plotters	
5. The main menu and its facilities	11-14
6. The standard menus	15-17
- 6.1 Screen menu	
- 6.2 Pull down menu	
7. AutoCAD commands list.	18-21

8.	Facilities of AutoCAD main commands	22-41
-	8.1 The layer command	
-	8.2 The hatch command	
-	8.3 The block command	
-	8.4 The dimensioning commands	
-	8.5 The text commands	
9.	AutoCAD most common commands and operations	42-48
10.	Few words about 3-D	49-53
11.	Conclusion	54
12.	Reference	55
13.	Drawings	56
-	DWG 1 : Layout	
-	DWG 2 : Ground floor plan	
-	DWG 3 : First floor plan	
-	DWG 4 : Roof plan	
-	DWG 5 : Elevation 1	
-	DWG 6 : Elevation 2	
-	DWG 7 : Elevation 3	
-	DWG 8 : Elevation 4	
-	DWG 9 : Section A-A	
-	DWG 10 : Ground floor, electric installation	
-	DWG 11 : First floor, electric installation
