HIGHER TECHNICAL INSTITUTE	PROJECT NO. 3005
----------------------------------	-------------------------

**IMPLEMENTATION OF QUALITY CONTROL
PROCEDURES IN A METAL WORKING
INDUSTRY**

by

Alexandros Alexandrou

Project report

Submitted to

the Department of Mechanical Engineering

of the Higher Technical Institute

Nicosia Cyprus

in partial fulfilment of the requirements

for the diploma of

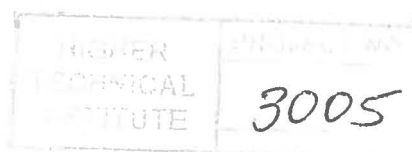

TECHNICIAN ENGINEER

in

MECHANICAL ENGINEERING

M/838

JUNE 1999

CONTENTS

Acknowledgements

Chapter One

Page

1. INTRODUCTIONS TO THE PROJECT

- | | |
|-------------------------------|---|
| 1.1 Objectives of the project | 1 |
| 1.2 Company selected | 1 |
| 1.3 Project layout | 1 |

Charter Two

2. INTRODUCTION TO QUALITY

- | | |
|--|---|
| 2.1 Meanings of quality | 2 |
| 2.2 The importance of Quality | 2 |
| 2.3 Meanings of "control" | 2 |
| 2.4 Object of Quality Control | 3 |
| 2.5 Meanings of Quality Control | 3 |
| 2.6 SPC | 3 |
| 2.7 Tools of SPC | 4 |
| 2.8 Types of Control Charts | 6 |
| 2.8.1 Average, Range and Sigma Charts | 6 |
| 2.8.2 Control charts for individual values | 6 |
| 2.8.3 Attribute Control Charts | 6 |
| 2.8.4 np Control Charts | 7 |
| 2.8.5 P Charts | 7 |
| 2.8.6 C Charts | 7 |
| 2.8.7 U Charts | 7 |
| 2.9 Process Capability Analysis | 7 |

Chapter Three

3. INVESTIGATION OF QUALITY CONTROL PRODUCERS AND METHODS IN A MANUFACTURING INDUSTRY

- | | |
|--|----|
| 3.1 Introduction | 10 |
| 3.1.1 Products offered by VIOMETAL LTD | 10 |

3.1.2 Quality levels	12
3.1.3 Business Departments	12

Charter Four

4. SUGGESTIONS OF METHODS OF IMPROVEMENT OF THE EXISTING QUALITY CONTROL PRACTICES	
4.1 Products selection and manufacture	14
4.1.1 Flow chart for the manufacturing of the two products	14
4.1.2 Production line of the ash tray	16
4.1.3 Production line of the rectangular pan	20
4.2 Existing quality problems	22
4.2.1 Cause-and-effect diagram	22
4.3 Suggestions for improvement of the existing quality control practices and methods	25

Charter Five

5. IMPLEMENTATION OF SPC IN SELECTED PRODUCTS	
5.1 Inspection of the dimensional accuracy of the body of an ash tray using X, R chart	27
5.2 Inspection of the dimensional accuracy of the bottom of the ash tray using X, R chart	33
5.3 Inspection of the dimensional accuracy of the thickness of the painting of the ash tray	37
5.4 Inspection of the dimensional accuracy of the rectangular pan using X, R chart	39
5.5 Inspection of the appearance of the ash tray	47
5.6 Inspection of the appearance of the rectangular pan	49
5.7 Pareto analysis of defects during the inspection of the appearance of the ash tray	51
5.8 Pareto analysis of defects during the inspection of the appearance of the rectangular pan	52

Chapter Six

6. QUALITY RELATED COSTS

6.1 Quality costs in VIOMETAL LTD	54
-----------------------------------	----

Chapter Seven

7. CONCLUSIONS AND RECCOMENDATIONS

7.1 General conclusions	55
7.2 Company's benefits	55
7.3 Personal benefits	55

ACKNOWLEDGEMENTS

I would like to thank my supervisor Mr Damianos Roushas, lecturer in Mechanical Engineering at the HIGHER TECHNICAL INSTITUTE for his assistance and guidance offered to me in carrying out the presented diploma project.

My thanks extend to Mr Ionas Angeli, lab assistant of 1st grade in the HIGHER TECHNICAL INSTITUTE for his help, assistance and guidance offered to me.
