HYDROLOGICAL MEASUREMENTS

AND

WATER RESOURCES

Ьу

STAVROU THEODOROS

Project Report Submitted to

the Department of Civil Enginnering
of the Higher Technical Institute
Nicosia Cyprus
in partial fulfillment of the requirements

for the diploma of
TECHNICIAN ENGINEER

in

CIVIL ENGINEERING

June 1993

ACKNOWLEDGMENTS

I would like to express my sincere appreciation and thanks to supervisor, Mr N. Kathijotes, for his valuable help and gudance during the preparation of this project.

I would also like to thank Mr. Theophilou officer of the metereological services and Mr Iliades officer of agriculture investigate institute for their remarkable help.

Finally I am very grateful to Miss Stavrou Stavroulla who has kindly undertaken the typing of the present report.

SUMMARY

HYDROLOGICAL MEASUREMENTS AND WATER RESOURCES

The objectives of this project was to:

- 1. Investigate and record the water resources of Cyprus.
- Illastrate and explained the methods of water resources evaluation.
- Evapotraspiration measurement thround Lysimetry to be taken and recorded.
