Higher Technical Institute
Diploma Project
(USER MANUAL)

This project is submitted in partial fulfillment for the requirements for the award of the diploma in Computer Studies

Project Supervisor: Mrs. Eliza Loizou
B.Sc, MA in Computer Science

External Assessors: Mr. Andreas Chrisafis
Laiki Popular Bank

CONTENTS

1. CATEGORIES OF PEOPLE ASSOCIATED WITH THE SYSTEM

1.1 The users of the service

This category is the biggest category of people in our project. A user can be any person that either wants to find a property or an owner who has a property and he wants to add it into the system.

1.2 CYTA Administrators

The administrators of CYTA are the persons that will make sure that the service is working as it was planned to work. Administrator can see the actual database with its tables and contents so that they can make any necessary changes. They can also alter records into the database in order for example to reset a forgotten password of a user.
